Cincinnati REDCap Resource Center

REDCap (Research Electronic Data Capture) is a secure, web-based application designed exclusively to support data capture for research studies, allowing users to build and manage online surveys and databases quickly and securely.

This space serves as a Knowledge Base for everything related to REDCap. From here you can

- Read a basic introduction to what REDCap can do for your research study
- Learn about basic functionality as well as more advanced features
- Complete the CCTST's online training course for REDCap.
- Use search bar on the left to search the Knowledge Base on keywords (highly recommended!)
- Request access to REDCap and/or request a REDCap Project
- Get information on Training Sessions

Please find helpful articles about REDCap in this Resource Center.

2021 REDCap Con: Winner of Best Online Training
